EDUCATION

Purdue University   **Expected Graduation 05, 2025**

BS, Computer & Information Tech   *Kokomo, IN*

WORK EXPERIENCE

Menards   **Mar. 2020 – Dec 2023**

Head Cashier | Aug, 2020 - Jan, 2023   *Kokomo, IN*

- Oversaw daily operations of the cashier staff, ensuring smooth and efficient customer transactions.
- Addressed employee and customer complaints, resolving issues promptly to ensure a positive shopping experience.
- Managed cash registers, including opening and closing procedures, and reconciled cash drawers accurately.
- Trained new cashiers on store policies, customer service standards, and proper cash handling procedures.
- Received numerous "Service Hero Cards" in recognition of outstanding customer service.

Cashier | Mar, 2020 - Aug, 2020. Jan, 2023 - Dec, 2023

- Prior to my promotion to Head Cashier, I processed customer purchases accurately and efficiently using the point-of-sale (POS) system.
- Handled cash transactions, provided change, and processed credit/debit card payments.
- Assisted customers with inquiries, product locations, and offered guidance on merchandise.
- Collaborated with team members to handle peak periods and maintain a smooth cashiering process.

PERSONAL WORKS & PROJECTS

HexMatch [(GitHub Repository)](#) [(Video)](#)   **Aug. 2023 – Present**

- Hexmatch is a memory and reaction time testing game implemented on a Raspberry Pi 4. The game challenges players to match randomly generated hexadecimal symbols/characters displayed on the TM1638 module with a target symbol on the 1-bit 7-segment LED display. The objective is to successfully complete 10 matches in a row.

Sinker [(GitHub Repository)](#) [(Video)](#)   **Jan. 2023 – Present**

- Sinker is a game of strategy where players are to guess the locations of hidden ships in a 10x10 grid. With a total of 10 ships each of varying lengths and 80 attempts, the player must find and sink all 31 ship pieces.
